AMENDMENT

Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Official Action of September 19, 2002, please amend the above-identified application as follows:

In the Specification:

Please replace the paragraph beginning on page 3, line 13, with the following:

51 This nitriding treatment essentially aims at improving the abrasion resistance of the surface part while restricting increase of the inside hardness of the member and ensuring its toughness, and does not intend to improve the strength of the whole member. However, in recent years, from the view of ensuring concurrently both reduced weight and strength/rigidity of the vehicle body, consideration is made to apply surface heat treatment techniques including such a nitriding treatment on structural members and
